

Rehabilitation Services

South Seminole Hospital is proud to offer a wide range of rehabilitation and therapy services to adults and adolescents, all customized to meet an individual's specific needs and goals. Services are offered in dedicated outpatient therapy suites outfitted with state-of-the-art equipment.

Our patients benefit from a level of expertise unmatched for effectiveness and efficiency close to home, which is why the South Seminole Hospital's Outpatient Rehabilitation is an ideal choice for healthcare professionals and patients.

We are an approved Medicare provider and we accept most insurance plans, including worker's compensation.

◉ Our Services

We want you to reach all your healthcare goals, and the right treatment and therapy can help you on your road to recovery. As part of the Orlando Health family, South Seminole Hospital can offer you the following services close to home:
