

Walk-in Convenience, Expert Care, Located in Melbourne

Our orthopedic experts offer the latest diagnostic and treatment options for injuries or illnesses that affect the bones and soft tissues in all ages.

Through specialized testing and other proven techniques, we provide care for orthopedic conditions affecting all areas of the body. For patient convenience, an Orlando Health Imaging Center as well as an Orlando Health Rehabilitation and Sports Medicine Center is located on-site, in the same building.

Because we are closely involved both in research and in the education of the rising generation of orthopedic specialists, the Orlando Health Jewett Orthopedic Institute team is a leader in the field of orthopedics. As a result, we offer you the latest, research-backed treatment options sooner than other orthopedic centers in the region.

We evaluate and treat the following types of injuries and conditions:

- Concussion care (sports related)
- Hip care
- Knee care
- Non-operative general orthopedics
- Platelet-rich plasma (PRP) injections
- Sports medicine
- Sprain care
- Strain care
- Stress fracture care
- Tendonitis care
- Ultrasound-guided joint injections

What to Bring

- Photo ID
- Insurance card
- Parent or guardian (If under 18)
