Please note that CME credits are not provided for this activity.

Trauma hours: 1.0

Credit type: Orlando Health Trauma Internal Education Program

Journal description: The following trauma journal article was chosen by the trauma program quality team for review in preparation for trauma verification by the American College of Surgeons. This will help to gain understanding of the importance of submission into the National Trauma Data Bank using documentation from the EMR and following quality Performance Improvement and Patient Safety (PIPS) processes to review opportunities in care.
