

**FIRSTNET**<sup>™</sup>  
Built with AT&T

## ❑ What is FirstNet?

❑ The First Responder Network Authority of the United States was created under the Middle Class Tax Relief and Job Creation Act of 2012 as an independent authority within the National Telecommunications and Information Administration. The purpose of FirstNet is to establish, operate, and maintain an interoperable public safety broadband network. To fulfill these objectives, Congress allotted \$7 billion and 20 MHz of radio spectrum to build the network.

## ❑ FirstNet Mission

❑ The mission is to deploy, operate, maintain, and improve the first high-speed, nationwide wireless broadband network dedicated to public safety. This reliable, highly secure, interoperable, and innovative public safety communications platform will bring 21st century tools to public safety agencies and first responders, allowing them to get more information quickly and helping them to make faster and better decisions.

# SUBSCRIBER PAID ACCELERATOR (SPA) ELIGIBILITY
