

Hospital Inpatient Unit transfer to Hospital Care at Home process:

- HCaH Admission hours: Monday – Sunday 7am-5pm
- IMG rounder identifies patient as potential HCaH candidate based on clinical criteria (Units TBD)
- IMG rounder initiates page via Perfect Serve or via call to HCaH Patient Care Hub (PCH)
- PCH team begins screening: geographical, payor, inpatient criteria
 - PCH provider begins clinical screening and will touch base with IMG provider to discuss the case further
- If patient meets all initial criteria and PCH team agrees patient may be a suitable candidate, HCaH acquisition coordinator and/or PCH RN will introduce patient to the program, complete social screening, and obtain verbal consent
- Once a collaborative decision is made to transfer patient to HCaH, PCH provider will touch base with IMG physician again. IMG physician will place transfer order
- Admitting IMG team to complete HCaH H&P
- If patient fails to meet above criteria at any point or declines HCaH, patient will remain in hospital
